PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Art Unit: 1651

Note:

The proposed amendment raises new issues that would require further consideration and/or search with respect to the amendment to claim 14 to replace "modified chemically defined growth medium" with "modified liquid medium containing a nutrient source, including new issues under 35 U.S.C § 112.

Response to Arguments

Applicant's arguments have been fully considered to the extent that they pertain to the claims now of record but they are not deemed to be persuasive.

While the proposed amendment might remove the new matter, it raises new issues at least under 35 U.S.C § 112, regarding the nature of the "modification" intended and therefore is not entered at this time.

Regarding the deposit, it is noted that the deposit is now under Budapest conditions. However, the rejection is maintained because a statement is lacking that **all restriction on the availability to the public of the material so deposited will be irrevocably removed upon the granting of a patent has not been provided.** See 37 CFR 1.801-1.809.
